

Amendments to the Specification

Please replace paragraph [0001] with the following paragraph:

[0001] This application is a division of U.S. Patent Application Serial No. 09/965,175, filed September 27, 2001, currently pending, which claims the benefit of U.S. Provisional Application No. 60/236,634 filed September 29, 2000, now abandoned. The disclosure of each of said parent and provisional application is incorporated herein by reference in its entirety, including any associated sequence listings.

Please replace paragraph [0058] with the following paragraph:

[0058] The functional tests for phenazine production are described in the literature and include several common analytical techniques, such as UV-spectroscopy, thin-layer chromatography (TLC), and high-pressure liquid chromatography (HPLC) (see Mavrodi, 1998, *supra*; Thomashow and D. M. Weller, *Journal of Bacteriology* 170:3499-3508, 1988; and Pierson III and Thomashow, *Molecular Plant-Microbe Interactions* 5:330-339, 1992[[], *supra*]).

New Divisional Application
Preliminary Amendment

PATENT

Amendments to the Sequence Listing

Please transfer the computer readable form (CRF) copy of the sequence listing filed September 27, 2001 in the parent application, Serial No. 09/965,175, and make the necessary change in application number and filing date to conform with the instant application.

Attached are: "Request for Transfer of the Previously Filed Sequence Information," copy of "Statement of Sequence Correspondence" filed September 27, 2001 in the parent application, and paper copy of the Sequence Listing filed September 27, 2001 in the parent application.
